### Frightened Mare Caught and Brought Back to Owner, With no Damage Done -Brushes on the Drive-Kingwood and

David B. Have It Out-Pacers Prominent There was an exciting runaway on the Speedway yesterday morning, and but for the prompt work of the mounted police it robably would have been attended with disastrous results. Mr. McAllister, behind the chestnut pacing mare Tillie D., 2:19%, had turned for a brush with Alexander New-

berger, driving the pacer Better Luck. Tillie D. is high strung, and she took such determined hold on the bit that her driver had to exert all his strength to keep her under control. The strain caused the light racing wagon she drew to sway violently. The driver lost his balance and finally half fell and half sprang to the roadway. For an instant he was dazed, but scrambled to

is feet without injury.
Freed from restraint, the frightened horse dashed down the crowded drive. Mounted Policeman Golden Fitzgerald saw from the cloud of dust that there was trouble above, harriedly warning those in the path of the runaway, prepared to capture the mare when she reached him.

mare when she reached him.

When Tillie D. ranged alongside the policeman she was under such headway that for a time she outran the saddle horse. The cop's warning had served to give the mare a clear road, and spurring his horse at every stride Fitzgerald took up the chase. It was an exciting occasion as the saddle horse slowly gained on the flying pacer. Fitzgerald had nearly reached her when the two passed over the hill under Washington Bridge and vere lost to view by the crowd. When Fitzgerald finally returned the mare to her owner nothing had been damaged.

The pacing contingent furnished the best sport of the morning. James A. Murphy, and the champion Don Derby, 2:04%. was invincible, but Dr. H. D. Gill, with Lady Direct, 2:15%, and John W. Smith, driving the black pacer Ogden Smith, had a hustling nish for second place, the Lady getting it. atter when Mr. Murphy took the reins be-ing Free Advice, 2:10%, he had a nice brush the Lady Direct, Free Advice winning y Direct, Free Advice winning arlier in the day Lady Direct degree Huber's trotter Marie Pandit. rt opened with a brush between A Coleman, and David B., 2:09's, J. W. Cornish. The black pacer seovite. 2:17'. by George A. Coleman, and David B., 2:09%, driven by J. W. Cornish. The black pacer David Muscovite, 2:17½, was added and he kept the trotters very busy. All three inisined lapped, Kingwood winning. In the eturn brush David B. dropped out and David Muscovite beat Kingwood. Thomas Leahey's ay trotter Boreas joined in the tilt near he quarter-mile post and finished in front of both. The third brush went to Kingwood, with only David Muscovite as a competitor.

Hopper, behind the black trotter Isaac Hopper, behind the black trotter to Soon, 2:244, was a prominent figure in the sport. The trainer, Maurice Dunn, behind Mr. Hopper's Maidee, had three brushes with Too Soon, the owner winning the deciding brush. The rival trotters James Shevlin, 2:1334, driven by Henry Phillips, and Freeland, 2:1734, with David Goodman up, had three good brushes, the final decision being in favor of James Shevlin.

A number of newcomers gave an impetus to the sport. The bay trotter Miss Geneva, driven by George Dusenhoven, and the A number of new conters are all and the to the sport. The bay trotter Miss Geneva, driven by George Dusenhoven, and the chestnut trotter Red Mike, handled by I. Thompson, proved persistent rivals. Miss Geneva won the first brush in a driving finish, and Red Mike the second. In the third and Red Mike the second. In the third brush Miss Geneva won.

Before his start with Tillie D., Mr. New-berger, behind Better Luck, had a close finish with his rival, Dr. Salamon, driving the trotter Annie W., and the pacer won. When Annie W. was sent against the trotter Crimmins, driven by J. T. O'Conner, the crowd saw three good brushes, Crimmins winning the deciding brush

Journal of the same dumbbell exhibitions which made the eyes of those present bulge. His first trial produced a new world's record. A bell weighing 141 pounds he tossed with one hand from the ground to a full arm's labove the shoulder with one motion and without a pause at the shoulder. This feat knocks out the previous record of 138 pounds made by W. Stoessen in Madious and Square Garden on Dec: 17, 1897. After a little rest Winter pushed up from the shoulder 139 pounds with the right and say in the shoulder 139 pounds with the right and say in the shoulder 139 pounds with the left at the same time. His next trial was to curl a bell weighing 139 pounds with his right hand, and he pushed 130 pounds with his right hand, and he pushed 130 pounds with his right hand, and he pushed 130 pounds with his right hand, and he pushed 130 pounds with his right hand, and he pushed 130 pounds with his right hand and si pounds with say our left hand. The pacer had begun to get leg weary. Harry H. also won from the bay pacer Smiler Collax, 2:1614, driven by Mr. Swarts. The sport came to a close with a brush between the trotters Del Arthur, driven by John Smith, and Captain A., driven by Joseph Austin. Del Arthur was the winner.

### Knights of Columbus Games.

The St. Augustine Council, Knights of Columbus, held athletic games at the new grounds owned by the city at Pelham Bay with their women friends attended to see the fun. The programme consisted of four events, and the competition was keen. The 220 vard run was won by W. C. J. Kelly in hollow fashion, and he actually flew over the ground. M. Sherman secured first prize in the 12 pound shot put with the fine performance of 47 feet. It was the best event of the day. Athletes of the St. Augustine Council went away with the majority of the

Council went away with the majority of the prizes.

220 Yard Run—Won by W. C. J. Kelly, St. Augustine Council, Henry Baker, St. Augustine Council, second; G. K. P. Klune, St. Martin of Tours Council, third. Time, 25 seconds.

Putting 12 Pound Shot—Won by M. Sherman, St. Augustine Council, with a put of 47 feet; Thomas McMahon, St. Augustine Council, second with a put of 39 feet 3½ Inches: M. Nugent, St. Augustine Council, third, with a put of 48 feet 2 inches.

360 Yard Run—Won by M. J. McGarry, St. Augustine Council, second: P. McKeon, St. Augustine Council, second: P. McKeon, St. Augustine Council, second: P. McKeon, St. Augustine Council, second: Fat Men's Race—Won by Thomas McMahon, St. Augustine Council, second: T. McGrath, St. Augustine Council, third. Time, 11 1-5 seconds.

Running Hop, Step And Jump—Won by Henry Baker, St. Augustine Council, with a jump of 36 feet 6 inches; F. Junk, St. Augustine Council, with a jump of 36 feet 9 inches; W. Sheehan, St. Augustine Council, second, with a jump of 36 feet 9 inches; W. Sheehan, St. Augustine Council, second, with a jump of 34 feet 1 inches.

### J. T. Dunn Buys the Onward.

Bell to James T. Dunn of this city through the agency of Henry J. Gielow. The yacht will go into commission at once, and will cruise for the remainder of the season in Eastern waters, going South next fall with which was formerly Lloyd Phœnix's first lattrepid, has made many long and notable cruises, and it is expected that she will continue to do so under Mr. Dunn's ownership. She is 114 feet 8 inches over all, 101 feet 7 inches water line, 24 feet 1 inch beam, and 12 feet 2 inches draught, and is fitted with twin screws, each driven by a 25-horse power gasolene engine. At present she is in Tebo's yacht basin, South Brooklyn, being fitted out under command of Capt. William A. Read. her owner for the winter. The Onward, which was formerly Lloyd Phœnix's first

ORDERS FOR N. Y. Y. C. CRUISE. Station at Glen Cove Will Be Formally Opened Next Thursday.

Commodore Bourne has announced that the New York Yacht Club station at Glen Cove will be officially opened at 9 o'clock next Thursday evening when the fleet is at anchor off the station. In the announcement Commodore Bourne says:

tions are associated with this old house. It seems appropriate, therefore, that its return to the club should be made an occasion of some special significance, and is hoped that the captains and members of the squadron will join with the flag officers in this effort, and be present at the simple ceremony of acceptance and dedication. The squadron will illuminate at 8 o'clock in the evening. The preparatory signal at 7:55 will be the concentration of the flagship's searchlight beam on the burgee displayed over the station.

A general play of the squadron's scarchlights is recommended, especially about 9 o'clock, and in the vicinity of the station. An informal reception

will be held from 9:15 to 11 o'clock, and to this the guests of the squadron are cordially invited: In circular No. 3 the Commodore says: Captains and members and their guests are in-vited to witness from the flagship the races for the Astor cups off Newport, Friday, Aug. 19. The flagship will leave the anchorage at 10 o'clock in

flagship will leave the anchorage at 10 o'clock in the morning.

Entries for the Owl and Game Cock colors, and for motor launches will be received by the fleet captain, and be closed on board the flagship at 11 o'clock in the evening. Aug. 17. Entries Game Cock, \$10.0 Owl, \$3.1 dingles, \$2: motor launches, \$10. The club adds \$2 an oar and \$5 for launches.

Motor launches will be divided into two classes: A, all boats over 21 feet load water line. B, all under 21 feet, load water line. No time allowance. The races for this class will be provided in general order No. 2.

The squadron will illuminate at 9 o'clock in the evening on Friday, Aug. 19. The preparatory signal at 8:55 will be the concentration of the flagship's searchlight beam on the United States ensign—holsted, throughine courtesy of the commandant, on the flagstaff of the torpeds station. A general play of searchlights is recommended, particular attention being invited to section 4, paragraph 5, yeach club routine.

play of searchlights is recommended, particular attention being invited to section 4, paragraph 5, yacht club routine.

The Haouli cups given by F. M. Smith are to be raced for off Newport on Aug. 18. The start will be made at 2 o'clock.

The course for cup No. 1 will be triangular, sixty miles all told; open for steam yachts enrolled in the New York Yacht Club, over 110 feet load water line.

The course for cup No. 2 will be twenty miles out and return, from Brenton Reef light vessel, forty miles all told; open for yachts enrolled in the New York Yacht Club under 110 feet load water line.

The regatta committee has decided to adopt for this event the rule of measurement and table of allowances of the American Power Boat Association with the addition that the heating surface of the boiler, divided by three, shall indicate the horse power of the yacht, and the restriction that no bypasses are to be used in the engines.

The Flag Officers' cups, the Astor cups, the Army and Navy and the Naval Alumni Association of Annapolis cups, the Brenton Reef and Cape May cups, the Haouli cups and other prizes offered will be on exhibition at the clubhouse up to Aug. 10, and after that date they will go with the Committee asks the owners of auxiliaries to meet the committee to-morrow afternoon at 5 o'clock in order to facilitate classification.

The regatta committee asks the owners of auxiliaries to meet the committee to-morrow afternoon at 5 o'clock in order to facilitate classification.

The transport of the committee to-morrow afternoon at 5 o'clock in order to facilitate classification of the committee asks the owners of auxiliaries to meet the committee to-morrow afternoon at 5 o'clock in order to facilitate classification.

The tup Unique will serve as an emergency vessel at all times during the cruise. Numbers, duplicate sailing instructions, &c., may be obtained from Niels Olsen, yachting superintendent, who will be on board.

RECORDS WITH DUMBRELLS.

### F. Winter's Great Lifting at the Games of

The New West Side A. C. held its monthly games yesterday and there were several interesting competitions and exhibitions. Fred Winter, the strong man of the club, Louis, gave some dumbbell exhibitions which made the eyes of those present bulge. His first trial produced a new world's record. A

in his left he held both bells above his head. Then he lowered the arms slowly until they were horizontal with the shoulders and extended at full length. In this latter position he held the bells for at least three seconds. he held the bells for at least three seconds.

In the athletic part of the programme Dan Frank distinguished himself by making two new track records. He cleared 22 feet 8½ inches in the broad jump, supplanting the old mark of 21 feet 8½ inches, by G. P. Arnold, in 1898. In the 440-yard handicap Frank won the first heat in 53 2-5 seconds, and this knocks flinders out of the previous record of 55 seconds, made by P. J. Conley in 1898. Frank won the final heat also in 54 seconds.

in 1896. Frank won the final heat also in 54 seconds.

440 Yard Run, Handicap—Members of the Church Athletic League—Won by T. Newman, St. George A. C., 14 yards; Henry Christoffers, St. George A. C., scraich, second; J. Laffergne, St. Bartholemew A. C., 20 yards third. Time, 56 1-5 seconds. 50 Yard Run, Handicap—Won by F. Kehr, 6 feet; Dan Frank, 2 feet, second; Chester E. Peabody, scratch, third. Time, 5 seconds.

Running Broad Jump, Handicap—Won by Dan Frank, scraich, with a jump of 22 feet, 8½ inches; R. S. Schaefer, 18 inches, second with an actual jump of 20 feet 5½ inches. D. M. Daley, 2 feet, third, with an actual jump of 19 feet 3½ inches.

One Mile Run, Handicap—Won by Robert Todd, scratch; C. Maher, 15 yards, second; J. Daley, 70 yards, third. Time, 4 minutes 40 seconds.

440 Yard Run, Handicap—Won by Dan Frank, scratch; James Lahan, 12 yards, second; J. W. Murphy, 6 yards, third. Time 51 seconds.

600 Yard Run, Novice—Won by George Mentz: J. McGahan, second: M. Schwartz, third. Time, 1 minute 29 seconds.

Throwing 35 Pound Weight, Handicap—Won by J. Foley, scratch, with a throw of 40 feet 5½ inches: T. P. Gillin, 4 feet, second, with a throw of 35 feet 10½ inches; W. Berkman, 6 feet, third, with a throw of 35 feet 3 inches.

## Cricket Records.

As the contest for the cricket championship of New York nears its close, additional interest is added by the close struggle of the leaders. Only a single drawn match now separated Livingston and Brooklyn Team A. Both have The auxiliary schooner yacht Onward still to meet Manhattan and Paterson, and has been sold by the estate of the late Fdward then a game between the two will wind up

the series.
In the individual records C: H. Clarke, with an average of 57.25, is now close to C. P. Hurditch, who has 63.12. With an aggregate total of 505 runs, the last named has now made a record in league championship matches,

Court Calendars This Dey. Lake District Probably Found-Busy

Times in the Alaskan Gold Fields SAN FRANCISCO, Aug. 4.-C. D. Gettis of Colorado, a copper mining expert, will take charge of the Blue Ledge copper mine on Elliott Creek, Siskiyou county, near the Oregon boundary. An authority on copper who inspected the mine recently says: "The values are there and the ore body exceeds anything I have ever seen. I predict that within five years Applegate Canon, in which the mine is located, will have 10,000 people. The mines are nearly on the summit of the Siskiyou Mountains, and a railroad with easy

California border." One of the richest discoveries in Plumas county in years was made in the Pat Mallory mine last week. Just as the last shot was fired the blast opened a five-foot vein of very rich quartz which assays \$700 a ton. The tunnel was in about 100 feet when the vein was struck. This mine was found eight years ago by Mallory while he was herding sheep. Newberry Mountain on the Mohave desert near Daggett, is now alive with prospectors,

grades can be built from Oregon over the

because of rich placer finds by Henry Penniman, an old desert prospector. Penniman worked out \$350 in four days. Then the craving for enjoyment proved too strong to resist. He went to Daggett, showed his gold and had a hard fight to save it from thieves. The attempted robbery spread the facts as to his find, and when he reached Newberry Mountain he found men working his claim. They held it with a shotgun. The camp will not be permanent, as gold lies in a narrow streak for only a mile and water must be

hauled several miles.

A big strike has been made in a claim in Siskiyou county, fifteen miles from Nolton on the Klamath River. The claim has been bonded to Mr. Staple of Ashland, Ore., for \$125,000. From the indications much gold was taken from the mine years ago and many remnants of shovels and other implements were found. There were also signs of a cabin having stood near the mine This makes many prospectors think Staple search has been carried on for over twenty years.

J. W. Johnson is opening up a rich mine

And the second state of the first below from the fi between the Superlor and the Isle Royale lands are certain lands owned by Hussey, Howe & Co., on which the lode must also traverse.

The Isle Royale's new shaft on Section 11, at the southern end of the company's extensive tract of mineral land, is now down about ten feet in the ledge. A large amount of mass and barred copper was found in the first five feet, and sheet copper is frequent in the fluccan between the lode and the hanging wall. The large amount of epidote noted in the rock, together with other indications, identify the lode as the southern continuation of the Isle Royale or Portage beds beyond doubt. A diamond drill hole bored before the shaft was started, gave very rich cores at a depth equivalent to a point between the third and fourth levels of the shaft now sinking, and the very top of the lode gave rock very much richer in copper than the average at the main workings of the mine. The management is much encouraged by the showing already made, which, if it holds, will give the Isle Royale a rich mine on the southern end of its property.

Ten years ago it was the general opinion in the Lake district that all the big copper deposits had been developed and that nothing of great importance could be looked for in the future. This opinion was based on the fact that the entire mineral belt from Keweenaw Point to some distance west of the Ontonagon River had been explored and punctured by innumerable drillholes, pits, shafts, trenches and adits for fifty years. Although the opinion of ten years ago seemed plausible, based on the data then at hand, its erroneousness has been demonstrated by the opening of many rich, new mines within the past seven years. Among these are the Baltic, Trimountain, Champion and Mohawk, which are each making an average of about a million nounds of refined copper monthly, and the development of other important new mines and the opening of promising prospects on the Kearsarge and Baltic lodes. Not one of the properties mentioned is an old mine warmed over. The Centennial and Al

mine

ALASKA.

SEATTLE, Wash, Aug. 1.—Outside of Nome the Tanana district is the busiest and most attractive in Alaska, and in new and improved machinery it stands first. Having demonstrated the value of their properties, the miners had no hesitancy in placing the best machinery to be obtained at Dawson on their claims, and the result is seen in the big spring cleanups and the amount of dust that is now coming out. Most of these plants have been paid for in gold dust taken from the claims on which they are now operating. A franchise has been granted for an electric light plant at Fairbanks, and the city will be lighted this winter.

An idea of the trade now centering in Tanana may be obtained from the number of steamers engaged in it on the Upper and Lower Yukon. In to the middle of July there were fitteen, with three more preparing to enter the trade this month. Old Klondikers pronounce it a rich district, but are dubious about it keeping up the present page. Exenter the trade this month. Old Klondikers pronounce it a rich district, but are dubious about it keeping up the present pace. Excellent diggings in the older districts such as Forty-Mile. Jack Wade, Rampart and Eagle have almost been deserted in the wild stampede to the Tanana. A scarcity of water in these older districts coused many to abandon their claims, but the rains in the early part of July supplied the deficiency, and those who stayed with the diggings never did better. There is water enough to last till October and a great deal of gold will come out this fall.

The long dry spell at Nome was broken

### MINING. MINING PUMPS.

THE CAMERON, in use the world over, and con-ceded to be the most acrylecable, durable and effect-tive Station and Sinking Pumps on the market to-day. Often imitated, never equalled. Write for catalogue and prices to the

CALIFORNIA COPPER CAMP.

on July 15. There is great activity now in all the camps Several millions will be taken out of the Nome creeks this season. Every steamer brings out fair consignition of the Promising.

APPLEGATE CANYON MINES ARE PROMISING.

The mines in southeastern Alaska are keeping up their reputation as heavy producers. This is especially the case with the Treadwell and those on Burner's Bay, the Treadwell shipping \$150,000 in bullion, together with large consignments of concentrates.

gether with large consignments of con-centrates.

Reports are current of extraordinary strikes in Burner's Bay district, resulting in the properties being bonded for \$2,000,000. These mines have b n under development These mines have by n under development for eight or ten years.

In Atlin district the mines are producing well. The Cook Inlet and Copper River mining districts are also having a good year.

The Buffalo people interested in the Alaska oil fields are not pushing development this season, but the English people in the Kayak country are adding to their already extensive holdings.

COLORADO. COLORADO.

COLORADO SPRINGES, Aug. 4.—The Colorado mica mines, according to Frank W. Jones, president of the United States Mica and Milling Company of Boston, Mass.. are the richest and most extensive in the world. He exhibits in proof a block 10x12½ inches which weighs 10 pounds. Its value is \$130.

"The Colorado mica is the best for commercial uses in the world," he says, "especially in electric manufacturing. Mica is fast supplanting rubber for insulating on all electrical appliances. Every electric car carries in its batteries \$150 to \$250 worth of mica. The value of mica depends on its size. Sheets approximating a foot square are worth \$13 a pound."

Mr. Jones's mica fields are at Micanite

Mr. Jones's mica fields are at Micanite in Fremont county. The company is capitalized for \$1,000,000. Nearly half of this amount has been expended in improvements. The machinery was made in Germany. The capacity of the mines is three tons daily. The Independent Smelting and Refining Company has purchased the plant of the Clear Creek Reduction Company, which was formerly operated by the Bene brothers at Golden. The semi-pyritic process will be applied to low grade ores, thus encouraging mining in northern Colorado counties.

The owners of Strallon's Independence Mine at Cripple Creek have cabled from London ordering its leasing. A thousand applications for the twenty-two blocks have been received. Lessees now practically control the situation at the camp.

The Camp Bird Mines Company of London will disburse the regular quarterly dividend of 18 cents a share to-morrow. The total is \$47,600. This amount brings the company's total to \$1,607,304 paid from earnings from the Camp Bird since the purchase two years ago.

Low grade ore in a large body has been Jones's mica fields are at Micanite

the Camp Bird since the purchase two years ago.

Low grade ore in a large body has been found on the Deerhorn claim of Stratton's Cripple Creek Mining and Developing Company, A. D. McMasters, lessee. Sorting secures values ranging from \$10 to \$12 a ton. The average may be increased by development to \$30 a ton. The body lies near the surface.

ment to \$30 a ton. The body lies near the surface.

Camp Reed, named in honor of Sextus H. Reed of New York, is attracting prospectors. It is located twenty miles northwest of Colorado Springs, in El Paso, Teller and Douglas counties, at 10,000 to 12,000 feet aftitude. It is reached by trail from stations between Green Mountain Falls and Divide, on the Colorado Midland road. Mr. Reed was the pioneer prospector. Gold, silver, lead and copper are reported in paying quantities. Select samples of ore assay \$16 to \$1,200 a ton gold. Silver appears in values from one to eleven ounces, copper 2 to 8 per cent., lead 9 to 20 per cent. Mr. Reed made his discovery last year. For several months work has been done quietly on the Alabama Gold and Copper Mining and Milling Company's property. One dump contains 1,000 tons of \$6 ore and another fifty tons of \$85 ore. William Harkins, T. J. Jones and George Williams are Mr. Reed's associates.

BRITISH COLUMBIA.

SEATTLE. Wash., Aug. 1.—California men are negotiating for the purchase of the Seachart iron mines on Barciay Sound, west coast of Vancouver Island, with a view to consolidating the properties and working the ore in connection with the Ensenada iron. The Seachart ores go 68 per cent. metallic iron, low in silica and sulphur, strictly Bessemer in character. The ore is two miles from a good harbor, which can be connected by wire train at comparatively small cost. The elevation is 1,000 feet, and the harbor is the best on the west coast. It is estimated that there are 2,000,000 tons of ore in sight.

Near Yale, or Siwash Creek, Americans are engaged in building a ten stamp mill to reduce the gold ore of a claim that is supposed to be the source of the placer gold that has been found in this creek for thirty years. It is expected that the mill, which is to be driven by water power derived from Siwash Creek, will be ready to drop stamps next month.

UTAH.

SALE LANG Land The market for the

UTAH.

SALT LAKE, Aug. 1.—The market for the month of July closed yesterday on dividends aggregating \$680,000, without reference to a \$200,000 dividend which was posted by the United States Mining Company for distribution on the 15th.

The copper plants closed on an output of copper bullion containing gold and silver amounting to 3,207,896 pounds and of a value of \$750,000.

### First Wedding in Catholic Convent. From the Columbus Evening Dispatch.

Catholic institutions, if not the first time in all the history of Catholicism, a marriage ceremony will be solemnized at a conven ceremony will be solemnized at a convent chapel, when at 9 o'clock on the morning of Aug. 10, Miss Hannah Margaret Leonard, the daughter of Theodore Leonard, will be-come the bride of Lieut. C. F. Leonard of the Seventh Infantry, the ceremony to be per-formed in the chapel at St. Mary's of the formed in the chapel at St. Mary's of the Springs.

In the thirty-eight years history of St. Mary's many young women have marched down the aisles to the altar in this sacred retreat to take the vows of sisterhood.

Among those who have taken the vows are many of Miss Leonard's relatives—Sister Gertrude, at the convent, being her aunt. Miss Leonard's grandfather, Theodore Leonard, Sr., in 1866 donated to the Dominican nuns the present site of St. Mary's. The Leonard family have been continual benefactors to the institution.

### Century R. C. A. Cycle Races. The Century Road Club Association held

its ten mile bicycle races to decide the championships of the New York and Long Island divisions at Valley Stream, Long Island, In the New York division Charles Nerent was the winner in 28 minutes, 54 1-5 seconds, Harry Appleton was second and J. Germano was third. Appleton is now the champion of the division, with a total of the champion of the division, with a country of 13 points.

In the race for Long Island division members Joseph M. Eiffer won in 27 minutes 34 4-5 seconds, G. Duester was second and Charles Halbach was third. Eiffer and Duester are now tied for the championship of their division, with 18 points each.

TRAIL OF THE JAGUAR. His Method of Killing Animals and Catch-

ing Fish. From Outing.

The trails of the jaguar are many, but they nearly all lead to a river, for water appears to be more needful to the tigre than to that he actually drinks more, so far as I can ways he finds an easy and abundant food in the river hog, in the small deer that come down to drink and in the fish that swim dentifully in all these streams.

In the Rio de la Plata, just off Buenos Ayres,

is an island where at one time a number of jaguars lived and thrived practically on the fish they caught, for there was nothing else on the island, and none ever heard of their visiting the mainland, because of its settleshore, for the tigre is a strong, bold swimmer and isinds no river of South America, not the widest, if he wishes to reach the opposite bank. He is a patient, unerring fisherman, watching for long periods from some vantage point, which may be either a fallen tree trunk extending into the stream or at the bank's edge, until a victim appears—when with a lightning blow he hurls the fish out on to the bank or clutches it as it swims past.

While the swampy jungle and the water-courses are his habitat, yet the jaguar will make incursions upon dry ground if cattle or horses or dogs or poultry offer, and river food happens to be scarce or for the time being more difficult to secure. I heard several trustworthy accounts of cattle and colts killed by the jaguar, though his ravages are not so frequent as once they were owing to his further inland habitat. His method of killing animals of this size is literally to stalk victim, and then to spring on their back, smaller animals the jaguar springs for the neck at once and appears to prefer the hind-quarters to the stomach, which is left for the vultures that are omnipresent in the open country.

Tigre is a much noisier animal than any other of the feline family, particularly at night, and roams the jungle disdainful of And he is without doubt absolute king of the South American forest; there is literally none to dispute his domain, none even worthy to do him homage, for the puma, which is fairly plentiful, has as little the courage of his convictions in South as in North America.

SLEPT UNDER THE WATER. Convivial Diver Took That Method of

of vigilant duty. She gazed straight ahead and made no sign. With a profane remark he jerked the rope and the car moved on. Two blocks further she arose and caugh his eye again. This time he managed to stop at the first corner. But she apparently changed her mind and sank comfortably

into her seat while an appreciative smile overspread the faces of the passengers. At the end of another two blocks she once more signalled to him to stop, and though he was bursting with wrath, a dozen pair of eyes were upon him, and he controlled him-The car came to a standstill, but she

did not move. "It's the next corner I want," she explained, "It's the next corner I want," she explained, in a clear voice, as a titter went around the car. "When I asked you to stop at Thirty-ninth you carried me to Fortieth, so I supposed if I signalled you for Forty-third you'd carry me to Forty-fourth."

And at the next corner she smiled graciously at the conductor as she stepped down and out.

### ELECTIONS AND MEETINGS.

TO THE STOCKHOLDERS of the Minneapolis, St. Paul & Sault Ste. Marie Railway Company—Notice is hereby given that the regular annual meeting of the stockholders of said company will be held at the general office of the company, Room 708, Guaranty Building, corner of Third street and Second avenue south, in the city of Minneapolis, State of Minneaola, on Tuesday, the 20th day of September, A. D. 1604, at 10 o'clock in the forenoon, for the election of directors and the transaction of such other business as may come before the meeting. Each share of stock is entitled to one vote. Stock-holders may be represented in person or by proxy duly appointed in writing. Transfer books will be closed on the 20th day of September. In addition to the ordinary business, a resolution will be presented to railfy and approve the action of the company's officers and board of directors in the purchase of the Blsmarck, Washburn & Great Falls Railway and railway property.

Minneapolis, Minn., June 21, 1904.

### PUBLIC NOTICES

NOTICE.
